**A GOOD PLACE TO TRADE.**

### Inga Councillors.

Inga Councillors met in Stony Plain on Friday last, with all the councillors present.

Mr. Day, engineer of the Dept. of Highways, was present, as also was Mr. Robert English, the secretary. Mr. Day took part in the discussion on the work of building and repairing market roads in the district.

The usual delegation was present from Mr. Shaw's division, and the old-time question of road work performed last season was given the once over. No time was set for the visit of the councillors to the road work in dispute in this division, but it is understood it will be some time next month.

An application for relief was received from a party living just north of Stony Plain, and this was referred to the Secretary, to secure the required information.

Mr. McNicholl, agent for Adams road machinery, was present, and followed up the spiel given at the last meeting, regarding the sale to the district of road making implements.

Mr. Andrews, of the Sawyer Massey Co., also had a few words to say on behalf of the products of the road machinery company he represents.

Considerable discussion took place when the matter of the roads at Edmonton Beach came up. Mr. Day, representing the Highways Dept., explained the situation as it affected the public and the patrons of the Beach. The matter was finally left in status quo.

Secretary Pidgeon will be in Stony Sat. June 27.

### Baron--Schoepp

The wedding took place on Sunday May 31 of Miss Mary Schoepp (daughter of Mr. and Mrs. Ph. Schoepp) to Mr. Louis Baron, son of Mr. Adam Baron.

The ceremony was performed in St. Matthew's Church by the pastor, Rev. Emil Eberhardt.

The wedding dance in the evening was a very popular event, pincetally the whole countryside being present, and the handsome young bride received the congratulations of a host of her friends.

### Valusch--Goerz.

The marriage took place last week of one of Stony's popular young ladies when Miss Elizabeth Goerz (daughter of Mr. and Mrs. Henry Goerz) became the bride of Mr. Henry Valusch of Vancouver.

The ceremony took place at the residence of the bride's parents, north of town, and was performed by Rev. Emil Eberhardt, pastor of the St. Matthew's Church.

The bridesmaid was Miss Mary Goerz, sister to the bride, and the best man was Mr. Louis Ulmer.

After the ceremony the wedding party and guests sat down to a charming wedding dinner.

The happy couple left on the evening train for Vancouver, where they will make their home. A large number of the young lady's friends were present at the station to bid her farewell.

### LOCAL NEWS

Mr. P. Lawton spent the week end at Seta Beach.

Mr. and Mrs. Brooks moved to the City last week, to reside for a short time.

Mr. and Mrs. Michael motored to the City on Saturday.

His many friends in town and district will regret to learn that Mr. John Sinner fell down the cellar stairs, Friday last, and broke several ribs, confining him to his apartments for several weeks.

A number of the Concordia College boys were home again over the week end and Whit Monday holiday.

Mr. and Mrs. Jack Shearer are up from Calgary this week.

Quite a few of the young people of town and district went out to the Henry Goerz residence Friday night with the intention of serenading the Newly-weds. They were given a good time.

The Women's Institute will meet Tuesday next, June 9 at the home of Mrs. Gates (Rev. W. J. Whelan will give an address).

Whit Monday was observed as a holiday by several of the business places in Stony.

The local school was closed yesterday, it being the 60th anniversary of the natal day of His Majesty King George the Fifth.

A very successful dance was that given by Martin's Orchestra in Stony Friday night last, the hall being comfortably filled with patrons.

Owing to the scenic painters not being able to complete the scenes for "Strictly Business" in time for the show tomorrow night, the date for the show has been altered to June 12.

Earl, the young son of Mr. and Mrs. Walter Graden, had the misfortune to break his arm last week while visiting with his uncle, Mr. Joe Bauerlein at Spruce Grove. The injured limb was set by Dr. Oatway.

Some disappointment was felt by shooters yesterday, that owing to the wet weather they were unable to practice at the Butts.

Some school children returning home Thursday afternoon thought they saw the dead body of a man on the old Dale farm north of town, and turned in a report. Officer Smith investigated, but no one was discovered at the place, although the spot looked as if some disciple of Bacchus had been taking an upstate snooze quite recently.

See M. Mecklenburg, the old reliable, long experienced, highly qualified and well established Eye Expert, at his office Edmonton, Hodge Bldg. or at Stony Plain Hotel on Monday June 8, and at Wabamun on Tuesday June 9. The best glasses at reasonable prices.

## Oppertshauser's.

# PEACH ROSE COFFEE "is good coffee"

## "Don'ts" and "Do's"

With the coming of the summer vacation period, the opening of summer cottages, the flocking of people to resorts, and the inauguration of automobile touring parties, the time has also come when all those who enjoy the advantages of these pleasures and health-giving pursuits should give heed to the wailing of those little precautions which require attention if real benefit and not harm is to result from a holiday.

People living in cities and towns with all modern conveniences at hand are sometimes apt to take unnecessary chances, and to neglect matters which are so essential to the maintenance of good health and the obtaining of full enjoyment and benefit from the relaxation which summer vacations afford. Because of these little overights it has been demonstrated on more than one occasion that epidemics of sickness have their origin in summer camps and vacation resorts.

Quite a few "don'ts" are urged upon the attention of summer campers and vacationists, but all too frequently the things which ought to be done are overlooked. For example, people are urged not to leave a camp fire until they are assured that the last spark has been extinguished. They are warned not to unnecessarily cut down or mutilate trees and shrubs. Touring motorists are even asked not to pluck way-side wild flowers only to have them wither and die in a few hours, but to leave them blooming in their natural state, thus adding to the beauty of the highways and adding to the pleasure of all.

But there are "do's" which are equally, possibly more, important. The city camper, used to turning a tap in order to obtain pure water, should pay close attention to the source and quality of the water he uses for drinking and cooking purposes. Disposal of camp refuse and garbage demands careful attention. In towns and cities where there is methodical collection and destruction of such waste matter by the municipal health authorities, people are apt to forget that at camp and in summer resorts that duty involves upon themselves and that their own health, as well as of others, and the maintenance of enjoyable surroundings, depends upon how efficiently this is attended to. The proper thing is to bury all such matter, and bury it deep. Too much emphasis cannot be laid upon the importance of proper sanitary arrangements in camps, no matter how small, and at all summer resorts.

In every summer cottage, and included in the equipment of all touring parties, there should be a small First Aid kit containing those few simple but essential things required in case of minor accidents, poisoning, severe sunburn, etc. Remembering that a doctor or nurse may be many miles distant such simple remedies, and the easily understood directions which go with such a kit, may result not only in relieving pain and discomfort, but actually preventing serious illness.

A little consideration given to these matters at the opening of the camping season may mean all the difference between a summer vacation proving both enjoyable and beneficial and just the reverse.

### Jealousy At Empire Show

Some Overseas Workers Think They Should Receive Official Recognition

When the British Empire Exhibition at Wembley closed last year there was keen disappointment among the persons who had actively participated in the big show because no titles or other honors were bestowed upon them to recognition of their services.

Some of the dominions, not including Canada, felt hurt that, while the English chairman of the exhibition standing committee, Sir James Stevenson, was elevated to the peerage as Baron Stevenson, and the two luminaries of the exhibition next to him were the recipients of minor titles, no such recognition was accorded overseas workers.

Truth says very few officials of the British Empire Exhibition last year desired any recognition whatever, seeing that they were abundantly overpaid and received extravagant entertainment allowances. One of the mistakes which caused last year's losses, Truth says, was the conflict between the military and civilian administration of the exhibition, and the bickering of last year is being continued this year.

**Alberta's Foreign Population**  
Alberta's total foreign population, according to a recent bulletin issued by the bureau of statistics, is in excess of 180,000 with approximately 100,000 Americans included in this total. About 5,000 Americans are resident in Calgary.

Monkeys of Borneo are no trouble-some to rubber growers, but the plants while young are guarded.

Fresh and carefully packed in pure olive oil. Keep a stock in the pantry for easily prepared, enjoyable meals.

## KING OSCAR SARDINES

### Italy Will Pay Says Premier

War Debt to United States Amounts To \$2,138,543,852

Italy's sacrifices in the world war and her lack of riches entitle her to be placed in the category of privileged nations in regard to her war debts to Great Britain and the United States, in the opinion of Premier Mussolini, who spoke before the senate on the foreign affairs budget.

Italy's war debt, said the premier, amounted to 100,000,000,000 lire, half of which was to the United States. (Italy's war debt to the United States amounts to \$2,138,543,852.)

"The Italian Government recognizes its debts and has declared that, compatible with its present and future economic and financial situation, it will face its debts," the premier said.

### Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

## NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rules out the very core of the pain, penetrates quickly through the tissues, and brings a most comforting relief at once. It is a liniment composed in part of relieving power with Nerviline. For the minor pains and aches that are always ready to hand, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Neuritis, Neuralgia, and Cuts. 25 cents at all dealers.

### To Produce More Butter

Prairie Farmers Are Setting a New Record For This Year

The Canadian prairie farmers have set 25,000,000 pounds of butter as their objective for 1925.

Last year the farmers and dairies combined produced 22,000,000 pounds of butter, but as the report market has made rapid strides for Western Canadian butter, the dairies have induced the farmers to produce more cream.

### A GRATEFUL LETTER

From a Lady Made Well By Dr. Williams' Pink Pills

"I wish from my heart to commend every person who is run down in health to give Dr. Williams' Pink Pills a trial." Thus writes Mrs. Louie Mitchell, Oak Point, Man., who further says:—"About a year ago I was a weak woman, suffering from a run down system and impoverished blood. Any little exertion would cause my legs to tremble and my heart to throb violently. I could not sleep a room or walk fifty feet without being exhausted. Then I began taking Dr. Williams' Pink Pills and after taking only six boxes I am as well and strong as ever. I can walk and run without stopping. I feel as if I were building up again, and I shall always find pleasure in recommending them to anyone needing them."

There are many troubles due to weak, watery blood which can easily be overcome by a fair use of Dr. Williams' Pink Pills. The sole mission of this medicine is to enrich and purify the blood and when that is done all the varied symptoms of anemia disappear, and good health returns. You can get these pills through any dealer in medicine or by mail at 50 cents a box by writing "The Dr. Williams' Medicine Co., Brockville, Ont."

### First Typist Passes

The First Woman to Operate a Typewriter For a Salary

There has just passed away in New Jersey at the age of 75, Mrs. Mary Saunders, who was the first woman to work a typewriter for a salary and as a recognized occupation. When Mrs. Saunders first became a typist she used a machine that nowadays would seem only an interesting relic of a primitive past. It was ridiculously slow, but before she retired Mrs. Saunders was typing 100 words a minute on better machines. So smoothly and imperceptibly has the typewriting machine clicked its way into favor and power that people are apt to forget how much they owe to it, and that there was a day, not so long gone, when all such devices were regarded as nothing more than ingenious and impracticable toys.—Vancouver Province.

Keep Minard's Liniment in the House

W. N. U. 1578

Note the flattened top of this fine kettle. The same shape shows the year level. A very fast boiler, decidedly neat in appearance.

Hinged lid at side of kettle for speedy filling under tap or by dipper; being hinged it cannot fall off or get lost.

Handle, extra large rigid, shaped to fit the hand and always cool; being rigid you have perfect control at all times.

This kettle is made in SMP Plant and SMP secured Registered Wares, also in the U.S. Patent Office. The same design and low code mark on each genuine kettle.

Well made, economical, properly curved spoon. Tip of spoon well above water line to prevent overflowing or spilling.

**SMP ENAMELED TEA KETTLE**

### Two Valuable Recipes

#### One Egg Cake

1/4 cupful Borden's St. Charles Milk, diluted with 1/4 cupful cold water.  
1/4 cupful vegetable cooking oil, scant  
2-3 cupful sugar.  
1 egg.  
1/4 teaspoonful salt.  
1/4 cupful baking powder.  
1/4 cupful sifted flour.  
1/4 teaspoonful vanilla.  
1/4 teaspoonful lemon extract.

Beat the egg light and cream it with the sugar, salt and flavoring. Combine the milk, diluted, with the cooking oil. Sift together the dry ingredients and add them alternately to the first mixture with the milk. Beat thoroughly, turn into a lined, medium-sized pan and sprinkle nut meats, chopped raisins or coconut over the top. Bake in a moderate oven for thirty minutes.

#### Strawberry Short Cake

2 cupful flour.  
2 teaspoonfuls baking powder.  
1 teaspoonful salt.  
2 rounding tablespoonsful butter.  
2 rounding tablespoonsful granulated sugar.

1 cupful Borden's St. Charles Milk, undiluted.  
Sift all the dry ingredients together, work in butter, as you would for pie crust, add the milk, beat with spoon. (It will be very stiff) and bake 20 minutes in an oblong pan. Split the cake with a hot knife, butter the two sides and put them together with two quart of strawberries which have been cut into small pieces, sweetened and allowed to stand before placing on cake.

#### Scots Dessert Porridge

Ham and eggs have replaced porridge as the popular breakfast dish in Scotland. The decline of the use of porridge, it was brought out recently at a board of agriculture inquiry, is attributed to a change in the national diet and began 10 or 12 years ago.

Corn disappear when treated with Holloway's Corn Remover without leaving a scar.

#### Factory Made 2,966,000 Rites

At a luncheon to Australian school boys who visited Birmingham, Small Arms Factory, P. Hannon, M.P., said that the factory's output of rifles during the war was 2,966,000.

#### Minard's Liniment for Backache

A man may shut his eyes to a painful truth, but he seldom shuts his ears if the forehead truth happens to be about his a neighbor.

### Old Ship Renovated

The Discovery, the old ship in which Capt. Scott made his memorable voyage to the Antarctic in 1901-4, has been partly rebuilt and refurnished at Portsmouth, and is now ready for another long voyage. She is a small, stoutly-built vessel, of about 760 tons.

### Relieved Of Rheumatism and Lumbago

### Now Quebec Man Recommends Dodd's Kidney Pills

Mr. George Tremblay Was Unable To Work But Is Now In Good Health St. Marie, Que.—(Special).—"Your Dodd's Kidney Pills have done me a lot of good," states Mr. G. Tremblay, who is well known and highly respected here.

"When I sent for them I was unable to work. I took ten boxes and to-day I can do my work and am without pain. I recommend them to all who suffer with backache, rheumatism and pains in the kidneys."

Dodd's Kidney Pills are not put forward as a cure-all, but for the specific maladies for which they are recommended, namely, rheumatism, backache, diabetes, dropsy, lumbago, urinary troubles and heart disease.

Dodd's Kidney Pills act directly and promptly at the seat of the trouble. They do not cause any derangements in the natural functions of any organ.

Dodd's Kidney Pills relieve after every other means have failed.

Ozark is a corruption of the French word aux arcs, and means "with bows," a term descriptive of the Indians who formerly inhabited the country.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean for its wonderful value. Kellogg's, the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

Birmingham, Eng., produces the largest variety of manufactured goods of any city in the world.

Feeble, pale, restless and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

### Woman Motor Driver

Miss Marjorie Batten, a London woman who served in the Women's Legion, takes her place daily at Bournemouth as owner-driver of a 14-seater motor coach. She is believed to be the only woman motor coach driver in England.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## Dominions Urged To Spend Entire Allotment Provided By Britain For Emigration

The overseas settlement department of the colonial office has issued a message written by J. H. Thomas, who was secretary for the colonies in the Ramsay MacDonald cabinet, and addressed "To my fellow citizens in the dominions and Great Britain." Dealing with the capabilities of the dominions and the smallness of their populations, he expressed himself at length on the latter problem and asks if the British people do not see that the existence of dominions as nations depends upon having them populated to a much greater extent. Canada, he says, must have more people, and five or six millions of British could not hold Australia. The success of the white Australia policy depends upon having more inhabitants.

Mr. Thomas states "that those empty lands are a danger to us all," and, in connection with their development and settlement, shows that under the Empire Settlement Act the British treasury can put up \$3,000,000 annually, but that not more than one-sixth of this amount has been spent yet in any year. He urges the people of the dominions to get together and find some means of spending this money and more, if necessary. He declares that "migration must be encouraged upon broader lines and questions whether it is enough to only encourage a man who is prepared to work as a farm hand and a woman as a domestic servant. He suggests that family groups be established upon a far larger scale, and even villages formed with others, besides land workers, included." He also asks if more opportunities in business could not be found for young men trained in the avocation of the city.

### Home Market For Pork

**Striking Example of the Purchasing Power of the Canadian Public**  
Canada, says the markets intelligence division of the Dominion livestock branch in its annual review of the situation in 1924, increased her exports of bacon and other pork and pork products by 34,593,100 pounds, the total being 125,150,000 pounds, compared with 105,646,900 pounds in 1923. The increase in exports does not represent the augmentation of hog supplies, since the surplus of hog marketings over the previous year was equal to about 40,000,000 pounds. As a consequence domestic industry must have absorbed 87,500,000 pounds more pork and products in 1924 than in 1923. As the review says—a striking example of the purchasing power of the Canadian people!

### Analysis Of Feeding Stuff

**Importance of Using Only Tested Preparations For Feeding Livestock**

There are at present on the market a number of high-priced feeds, mostly the by-products of packing houses, slaughter houses and canneries, and including meat and blood meals, tankage, bone meal and fish meals. A new bulletin, No. 49 of the department of agriculture, prepared by Dr. Frank T. Bunt, Dominion chemist, and Miss S. N. Hamilton, assistant chemist, gives for the first time in Canada, an analytical survey of these materials. The composition of a large number of samples is given in detail. The authors stress the importance of making certain that these feeding stuffs are sound and wholesome and free from any taint of rancidity and decomposition. They should be purchased only on guaranteed analysis.

### Will Not Extend Time

The British Government has informed Bulgaria that it does not consider it necessary to extend the time within which Bulgaria may use a temporarily increased militia force. This increase was authorized by the allied council of ambassadors at Paris in order to permit Bulgaria to cope with the recent disturbances in that country.

### A Little Uncertain

Uncertain—What are you thinking of planting in your garden?  
Banshee—I haven't decided yet. However, I'll be either a To Let or a For Sale sign.

W. M. U. 179

### Natural Resources Bulletin

Canada of the Future to Become the Granary of the World

The natural resources intelligence service of the department of the interior at Ottawa says:  
Canada's crops are now in the ground, and the annual question, "what will the harvest be?" must remain unanswered for some months. The result will now depend upon Nature. Sunshine and moisture have the final say as to the outcome, and in this connection it is well to recognize our dependence upon forces entirely beyond our control.

Canada, fortunately, is blessed with a climate that produces the very best of staple food supplies and that can be depended upon. It is well for the world that such is the case, for many countries would be hard pressed for enough to eat. Canadian wheat in its raw state is now going to 26 individual countries, while Canadian wheat flour is being used upon the tables of the people of 43 countries. Canadian oatmeal and rolled oats are going to 20 countries, while meats of all kinds are being provided for a great many populations.

Canadian farmers have a responsibility which has probably never before been placed upon the shoulders of any group of men. The United States has practically ceased as a wheat exporting nation, and the eyes of the world are being directed to Canada. We have the land, we have the climate, and we have the men with the ability and will to meet the demand, and within the next few years this country will occupy a position never before occupied by any country instead of being, as it now is, the "granary of the empire." Canada will be the granary of the world. With the advantage of a beneficent nature, the aggressiveness and energy of Canadian farmers, Canada as a world supplier, will make good.

### Nature Cannot Protect Forests Against Fire

**Thorough-going Conservation Scheme is Great Need of Dominion**  
Not many weeks ago one would have thought that forest fires were about the last things Albertans needed to worry about. With every hollow full of water and the earth soaked as it has not been in spring for many years, the prospect was for a summer when fires would cut little or no margin off the gross value of our forest lands.

But already the fire rangers are sounding warnings that in the timber tracts the conditions for devastating conflagrations are almost ideal. The moral is that we cannot leave it to nature to protect the forests against fires or other enemies. That will have to be done by human brains and brawn. The job will cost money but we cannot afford not to spend it. A thorough-going forest conservation scheme is one thing the province—and the Dominion—must have.—Edmonton Bulletin.

### Benefits Of Sheep Dipping

**Contrasting the Results Between Dipping and Not Dipping**  
A livestock branch sheep promoter in Western Ontario who had taken an active part in installing cannibal sheep dipping tanks, tells an interesting story of the experience of a group of sheep men for whom one tank was installed. These men were not very enthusiastic about sheep dipping, and the second year neglected to put their sheep through. The one season's experience, however, had enabled them to contrast the results between dipping and not dipping. The next year every man of them came back thoroughly convinced that no branch of the farm work was more important than the annual dipping of the sheep, which produces a better and more valuable flock, more contented and therefore better doing crop of lambs which finish readily for the market.

"Green makes dark women attractive." Love green makes any of them attractive.

When a man can't do anything else he can develop into a chronic kicker.

## Success For Honest Worker

Hebrideans Better Off In Canada Says Bishop of Argyll

"No honest, hard worker need fear of failure in Canada," said Dr. Donald Martin, Bishop of Argyll and the Isles, who passed through Montreal recently enroute to Scotland after a six months' tour of Canada and the United States, during which he visited the Hebridean colony established at Red Deer, Alberta, in 1923.

"Canada is a new and growing country," the bishop said, "and while life for the settler is still more or less crude, I was pleased to see the way my former parishioners had taken hold in their new walk of life. With the exception of a few of the oldest members of the colony, who suffered somewhat from homesickness, and are too old to take root in a new country, I found them all satisfied with the change. They are decidedly much better off in Canada than in Scotland."

### Increase In Trade

**Big Increases Reported In Many Lines Of Trade**

Canada's trade was ten million dollars greater in April, 1925, than in April last year, and the increase was chiefly in exports. A recapitulation of exports and imports for last month shows that Canada exported goods to the value of \$50,509,377, and imported \$59,194,421.  
In April, 1925, exports were \$48,880,314, and imports \$60,175,141.  
Exports of agricultural and vegetable products went up six million dollars and of minerals and animal products increased about two million dollars. There was also a big increase in exports of minerals as compared with April, 1924.

### Swiss Bought Canadian Wheat

**202,000 Tons Were Imported From Canada Last Year**  
Canada supplied Switzerland with most of its imported wheat in 1924. The annual figures show that Switzerland bought 202,000 tons of wheat, nearly 99 per cent. less than in the previous year, whereas the wheat consumption amounts to nearly 120,000 tons a year. Switzerland imported 377,000 tons mostly from Canada (202,000 tons), from the United States, 158,000 tons, and from Hungary, 13,900 tons; while 8,605 tons were imported from Russia by intermediary means.

### Five Million Trees

**Distribution of Seedlings and Cuttings From Government Nurseries**  
The twenty-third annual distribution of seedlings and cuttings of trees for shelter belts and windbreaks planting in the prairie provinces has been completed by the Dominion forestry branch from their nurseries at Indian Head and Sutherland. The Sutherland farm this year established a record of 3,600,000 being shipped to 2,650 applicants. The forestry station at Indian Head shipped 2,400,000 trees to 2,555 applicants, making a total shipment of five million trees.

### Pelican Flower Is Peculiar

**Native of West India Has Been Made to Bloom in U.S.**

The first pelican flower to be raised in a United States nursery is now blooming in the Botanic Gardens at Washington. This bloom of the vine aristocratic is also known as the goose flower. The vine is native to the West Indies, and the feat of making it bloom represents ten years of effort by the director of the garden. The head and back of a duck appear outlined in white, like this in this peculiar flower, which is purple within.

### Scottsman's Bad Luck

A Scottish visitor in London heard it was good luck to throw a slipshod into the Thames, but found out that it wasn't quite so, because the string he had on the coin slipped off.—St. Catharines Standard.

Mr. Thickdick: "When I read about the use of these wonderful inventions in electricity it makes me think a little."  
Miss Smart: "Yes, isn't it remarkable what electricity can do?"

A wealthy and eccentric Scotchman made \$100 in his will for the service of a man to do the memory of his favorite cat.

## Summing Up All The Good Things Trees Will Do For The Prairie Farmer

### Seek Settlers From U.S.

A United States Emigration Branch Established at Ottawa

Although considerable public attention has recently been directed to the policy of the Canadian Government in encouraging British families of farm experience to settle in Canada, not so much is known of the work being carried on by the Canadian department of immigration and colonization in the United States. Nevertheless it is recognized that American farmers, who have had agricultural experience under conditions very similar to those which prevail in Canada, are among the most desirable classes of new settlers, and an aggressive campaign is being carried on to increase the number of farmers coming from the United States to Canada.  
For the better promotion of this work there has recently been established in Ottawa a United States emigration branch, which is under the direction of J. Bruce Walker, an official of many years' experience in immigration and colonization work on behalf of the Canadian Government. The offices of the United States have been entirely re-organized and their efforts very considerably speeded up.

### Moon Farming

**Survival of Early Belief About Effects of Moon on Growth of Plants**

Some time ago the Union printed the fact that an English scientist, a woman, had proved by long experimentation that the moon had a strong influence upon the germination of seeds and that the belief that seeds should be planted in the coming of the moon rested upon a scientific basis. For decades our farmers have been decided for their belief in the potency of the moon. The end sought could be reached by exposing seeds to moonlight before planting. Now we are informed that the state of the moon governs the destructive chilling and the freezing of fruit crops.

When fruit trees and shrubs blossom in the light of the moon, they survive any subsequent frosts. But if they blossom in the dark of the moon the fruit does not stand frosts. The dark of the moon produces weakness in the blossoms, while the light produces waxiness and so the subsequent frost is fortified against any but the heaviest frost.—Manchester Union.

### Not Such A Disadvantage

**Young People From Farm Are Successful in City**

Farmers have been led astray in this matter of schooling by a lot of zealots. We read frequently that the education of the country child is inferior to that of the city child. The reformers who state this people for the most part interest in color as a commercial proposition—point to the one-room school, the poorly paid teacher, and the short school-year. However, they do not try to prove that the children who have remained on the farms have ever fallen down on the job of education or that those who have left have been unable to compete successfully in business or professional work. Some of our reformers forget the advantages of disadvantages.—Glen Herbert in the Atlantic Monthly, Boston, Mass.

### Saskatchewan Dairy Products

**Estimated Value of Last Year's Production Placed at \$19,577,680**  
The estimated value of the dairy products of Saskatchewan for 1924 is \$19,577,680. The principal products making up the total were 13,653,902 pounds of creamery butter valued at \$4,626,807; 35,350,000 pounds of dairy butter, value \$4,235,000; ice cream, \$24,924 gallons, value \$465,007; milk sold for consumption, 12,400,000 gallons, value \$1,100,000; skim milk fed to calves, 9,439,550 gallons, value \$1,877,216. The estimated value of poultry and poultry products of Saskatchewan in 1924 was \$3,441,565.

The number of well known women writers is slightly greater than famous men writers.

The early Romans made ink from liquid found in cuttlefish.

### (By Archibald Mitchell)

In these days when a radical change is developing in farm practice on the prairie, when we are beginning to desert the old risky annual adventure of straight wheat growing for the safer methods of modified summerfallow, corn, sunflowers and stock, there is nothing of more interest and importance than the growing of trees on the farm.

Have you ever stopped to sum up all the good things trees will do for the prairie farmer? In the first place they make his place noticeable, not a person passing, be he neighbor, tourist, immigrant or prospective buyer, but will see it from even miles away. Trees are the most conspicuous landmarks anywhere on the prairie, and planted farms always catch the eye. Passerby may not see the condition of the soil or the crops or the buildings or the fences, but they never fail to comment on the plantations they see. It creates an impression that is never forgotten. Trees create an air of comfort and substantiality and of the homeliness so distinctive and so dear to every family make them an asset of which no one can estimate the value. To the farmer himself and his family living there, the benefits are of prime importance, for they have shelter from the winds and shade from the sun in summer and the fierce cold blasts of winter pass them over. Many a time in winter they create an air of comfort for an overcast until they get outside their own gate and away from the shelter of the trees. The coal bill is lessened, for the constant steady stream of cold air has not to be contended with, which makes a great difference in maintaining the temperature inside. Then there are the material advantages arising from a good garden which invariably follows the shelter belt. Abundance of the finest kind of vegetables, small fruits and even large fruits; for rarely do you find a three or four-year-old plantation that is not sheltering the first beginnings of an orchard of apples, crab and plum trees. The one invariably follows the other and so successful fruit growing has yet been recorded from the prairie unless from behind the shelter of a tree belt.

### A Poor Hiding Place

**Merchant Finds Wastepaper Basket No Place to Hide Money**

Joe La Mantle, a Strathroy, Ont., fruit merchant, had an expensive accident recently. He placed his cash, some \$250, in an envelope and dropped the envelope into a wastepaper basket in his store for safekeeping over the weekend.

He never thought of the money at anytime while he was in the store during the first part of the week. When he went to get it he discovered, to his horror, that the contents of the basket had been burned by his clerk in tidying up.

About \$30 in silver was salvaged from the ashes, but the Mills were a total loss.

### Shipbuilder Is Optimistic

In twenty years' time, passengers who wish to cross the Atlantic quickly will do so by airship or aeroplane. In the opinion of Sir Allister Yarrow, Glasgow shipbuilder, who addressed the members of the Quebec Rotary Club recently.

### Appropriates

Grandpa—What is the name of the young man who has just come to see Mary?  
Grandpa—We call him April Showers.  
Grandpa—April Showers? Why?  
Betty—Because he brings me flowers.

A new portable machine for printing small permit marks upon and automatically feeds, cuts, stacks and counts letters fed into it.

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan  
in the title role, is an adaptation of this thrilling novel.

## CHAPTER XXI.—Continued

"He said that!" she cried. "He did that! Oh!" she turned away, and through the slender, clustering trunk of the bordering orange trees she looked out across the glittering waters of the great harbor to the distant hills. Thus for a little while, his lord's standing stiffly, fearfully, waiting for fuller revelation of her mind. At last it came, slowly, deliberately, in a voice that at moments was half suffocated.

"What weighs—oh, so heavily and bitterly—is the thought that but for the words in which yesterday I repelled him, he might have been saved. And now he is lost—back at his out-lawry and piracy, in which ultimately he will be taken and destroyed. And the fault is mine—mine!"

"You have no cause for shame," said he. "As for your sorrow—why, if it will afford you solace—you may still count on me to do what man can to rescue him from this position."

"You will do that?" she cried with sudden eager hopefulness. "You promise?"

"I promise," he answered her. And then, retaining still the hand she had surrendered to him—"Arabella," he said very gently, "there is still this other matter upon which you have not answered me. This matter that concerns myself, and all my future, oh, so very closely. This thing that Blood believed, that prompted, that—that is, that you are not indifferent to me." He saw the fair face change color and grow troubled once more.

"Indifferent to you?" said she. "Why, no. We have been good friends; we shall continue so, I hope, my lord."

"Friends! Good friends?" It was between dismay and bitterness. "It is not your friendship only that I ask, Arabella. You heard what I said, what I reported. And you will not say that Peter Blood was wrong?"

Gently she sought to disengage her hand, the trouble in her face increasing. A moment he resisted; then, realising what he did, he set her free.

"Arabella!" he cried on a note of sudden pain.

## ABLE TO DO HOUSEWORK NOW

**Sick a Year. Got Great Benefit from Lydia E. Pinkham's Vegetable Compound**

Bloomington, N. S.—"I took Lydia E. Pinkham's Vegetable Compound for pains and backache, also for nervousness, sick headaches and sleeplessness. I was troubled in this way for over a year, and a friend told me about the Vegetable Compound and induced me to get benefit from it and am able to do my housework now. I recommend the Vegetable Compound myself and am willing for you to use this letter as a testimonial."—Mrs. WILLIAM MORSE, Bloomington, Annapolis County, N. S. Do you know that in a recent canvass among women users of the Vegetable Compound over 200,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 99 per cent. replied "Yes." This means that 99 out of every 100 women are in better health because they have given this medicine a fair trial.

Mrs. Morse is simply another case of a woman receiving great benefit. Women suffering from the troubles so common to their sex should listen to what other women say who have experienced the same sufferings and found relief. Give this dependable medicine a chance—and at once. It is sold at all drug stores.

W. N. U. 1579

### Palestine To Have Its Own Coinage

Over Thousand Years Since Last  
Last Coins Were Issued By Jews  
Palestine, by a recent decision of the British Government, is to have its own coinage, the names of the milled shekels, dinars and prutahs—being those used in an ancient monetary system closely connected with Jewish history.

It was about one thousand eight hundred years ago that the last coins issued by a Jewish nation were put into circulation.

"I have friendship for you, my lord. But only friendship."

"Is it Peter Blood?"

"Peter Blood?" she echoed. "I do not know," she said, faltering a little. When the Jamaica fleet put to sea some few days later, Lord Julian sailed with Colonel Bishop in Vice-Admiral Crauford's flagship. They cruised awhile off Hispaniola, watching the Windward Passage, but they cruised in vain, and, after a month of it, returned empty-handed to Port Royal, there to find awaiting them the most disquieting news from the Old World.

The megalomaniacs of Louis XIV. had set Europe in a blaze of war. The French legionaries were ravaging the Rhine provinces, and Spain had joined the nations leagued to defend themselves from the wild ambitions of the King of France. And there was worse than this: there were rumors of civil war in England, where the people had grown weary of the bigoted tyranny of King James. It was reported that William of Orange had been invited to come over.

"Then with Blood dead, perhaps she will come to her senses."

Weeks passed, and every ship from home brought additional news. William had crossed to England, and in March of that year, 1689, they learnt in Jamaica that he had accepted the crown and James had thrown himself into the arms of France for rehabilitation.

To a kinsman of Sunderland's this was disquieting news, indeed. It was followed by letters from King William's Secretary of States informing Colonel Bishop that there was war with France, and that in view of its effect upon the Colonies a Governor-General was coming out to the West Indies in the person of Lord Willoughby, and that with him came a squadron under the command of Admiral van der Kuylen to re-enforce the Jamaica fleet against eventualities.

Bishop realized that this meant the end of his supreme authority, even though he should continue in Port Royal as Deputy-Governor. Lord Julian, in the lack of direct news to himself, did not know what it might mean to him. But he had been very close and confidential with Colonel Bishop regarding his hopes of Arabella, and Colonel Bishop more than ever, now that political events put him in danger of being retired, was anxious to enjoy the advantages of having a man of Lord Julian's influence for his relative.

"There is one obstacle in our path," said his lordship. "Captain Blood. The girl is in love with him."

"The braggart baggage! By God! I'll bring her to her senses."

"Don't be a fool, Bishop. Listen, man. She has a constant mind.

**SMOKERS** always prefer their tobacco in perfect condition; this is assured, when they demand it packed in the famous Vacuum (air-tight) tins.

The following well known brands are now packed in the famous Vacuum (air-tight) tins.

- OLD CHUM Virginia Flake CUT SMOKING Tobacco
- REPEATER FINE CUT (Pipe or Cigarette Tobacco)
- REX Smoking MIXTURE (for Pipe or Cigarette)
- DIXIE Bright PLUG SMOKING Tobacco
- OLD VIRGINIA Bright PLUG SMOKING Tobacco
- ODGEN'S CUT PLUG Smoking Tobacco
- ODGEN'S FINE CUT (Pipe or Cigarette Tobacco)

## Always ask for the Famous Vacuum (Air-Tight) Tin

As long as Blood lives she will wait for him."

"Then with Blood dead, perhaps she will come to her silly senses."

"Now you begin to show intelligence," Lord Julian commended him. "That is the first essential step."

"And here is our chance to take it," Bishop warned to a sort of enthusiasm. "This war with France removes all restrictions in the matter of Tortuga. We are free to invest it in the service of the Crown. A victory there, and we establish ourselves in the favour of this new government."

"Ah!" said Lord Julian, and he pulled thoughtfully at his lip. Bishop laughed cheerily.

"We'll hunt this rascal in his lair, right under the beard of the King of France, and we'll take him this time. If we reduce Tortuga to a heap of ashes."

At that expedition they sailed two days later—which would be some three months after Blood's departure—taking every ship of the fleet, and several lesser vessels as auxiliaries. To Arabella and the world in general it was given out that they were going to raid French Hispaniola.

## CHAPTER XXII.

The Service of King Louis

Meanwhile, some three months before Colonel Bishop got out to reduce Tortuga, Captain Blood, hearing hell in his soul, had blown into its rock-bound harbour ahead of the winter's gales, and two days ahead of the frigate in which Wolverstone had sailed from Port Royal a day before him.

In that snug anchorage he found his fleet, awaiting him—the four ships which had been separated in that gale off the Lesser Antilles, and some seven hundred men composing their crews.

His captains, Harghrove, Christian, and Yberville, were on the jetty to receive him, and with them were some hundred of his buccaniers. When

### Death On Warts

Apply Minard's daily. Warts dry up and disappear. Also relieves bunions.

they plagued him with questions, he bidden await the coming of Wolverstone, who would satisfy their curiosity, and took his way alone to the fine house of M. d'Ogeron, there to pay his respects to his friends, the Governor and the Governor's family.

When the Old-Wolf cast anchor in the bay two days later, it was to him all turned for the explanation they were about to demand of Blood. Now Wolverstone had only one eye; but he saw a deal more with that one eye than do most men with two; and he had the sound heart of a boy, and in that heart much love for Peter Blood.

Anon when ashore he was beset by questioning buccaniers, it was from their very questions that he gathered exactly how matters stood, and perceived that either from lack of courage or other motive, Blood, himself, had refused to render any account of his doings since the Arabella had separated from her sister ships.

"The Captain was ever a modest man," he explained to Harghrove and those others who came crowding round him. "It's not his way to be sounding his own praises. Why, if I like this! We fell in with old Don Miguel, and when we'd scuttled him we took aboard a London pimp sent out by the Secretary of States to offer the Captain the King's commission if so be him'd quit piracy and be o' good behaviour. The Captain damned his soul to hell for answer. And then we fell in w' the Jamaica fleet and that grey old devil Bishop in command, and there was a sure end to Captain Blood and to every mother's son of us all. So I goes to him, and accept this pious commission, says I: 'Turn King's man and save your neck and ours.' He took me at my word, and the London pimp gave him the King's commission on the spot, and Bishop all but choked himself with rage when he was told of it. But happened it when, and he was forced to swallow it. We are King's men all, so into Port Royal we sailed along o' Bishop. But Bishop didn't trust us. 'He knew too much. But for his lordship, the fellow from London, he'd ha' hanged the Captain, King's commission and all."

(To be continued)

Believes Canada Will Be Leader

Hon. Wm. Morrow, I.M.C., member of the legislative council of the Upper House of South Australia, who arrived in Toronto recently, predicts that within a few years, Canada, and Ontario particularly, will be among the leading countries of the world.

Canadians Great Butter Eaters

With 3,600,000 milk cows, 300,000 dairy farmers, 1,500 creameries and many thousands of cheese factories, Canadians are the greatest butter eaters in the world, according to D'Arcy Scott, secretary of the national dairy council of Canada. The per capita consumption in 1923 was 27.43 pounds.

### GIVE CONFIDENCE TO YOUNG MOTHERS

A simple and safe remedy for the common ills of childhood should be kept in every home where there is a baby or young child. Often it is necessary to give the little one something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth. Experienced mothers keep Baby's Own Tablets on hand for such purposes and young mothers can feel safe with a box of the Tablets ready for emergencies. The Tablets are a mild but thorough laxative that act without griping and they are guaranteed to be absolutely free from opiates or other harmful drugs. They are sold by all druggists or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### The Surest Way

A correspondent wonders which is the best way to make sure of admission to a court during the hearing of murder trial. We do not recommend it, but by far the surest method is to commit the murder.

**Children Quickly Learn To Rely On Cuticura**

To soothe and heal the rashes and skin irritations of childhood. Daily use of Cuticura Soap, assisted by Cuticura Ointment, will keep the skin and scalp clean and healthy and prevent simple irritations from becoming serious.

Solely Sold Free by Dr. J. C. Cuticura, Canadian Branch, 100, Queen St. W., Toronto. Cuticura Ointment, 25c. Cuticura Soap, 25c.

## WILL POINT OUT DEFAULTS IN A NOTE TO GERMANY

London.—Germany's defaults relative to disarmament, as specified by the Treaty of Versailles, have been outlined for presentation to Berlin in a note that probably will be dispatched this week by the council of ambassadors.

The note and a covering letter, which have been agreed upon by France and Britain, will point out that, in view of the fact that the allied committee of control has concluded that Germany has not fulfilled all of her disarmament obligations, the allied experts have agreed upon a list of defaults which will be in very plain language.

On the whole, France considers Germany has fulfilled her obligations in the destruction of armaments, say French authorities here, but still 30 or 40 factories for war materials which yet are to be transformed into commercial establishments. Objection also has been raised to the large German war staff and the state police.

## Unique Ceremony In Winnipeg

"Unknown Soldier's Cross" From Flanders Presented at Toc H.

Winnipeg.—A ceremony such as has never before been witnessed in Canada marked the solemn presentation of the "Unknown Soldier's Cross" at the headquarters of Toc H. (Talbot House), by Major-General H. B. Ketchen, officer commanding Military District No. 10 here. The little wooden cross, with the mud of Flanders still clinging to it, was forwarded to Mark One of the Empire-wide organization, by Field Marshal Lord Plummer as a symbol of sacrifice.

The cross once marked the grave of a Canadian soldier who gave his life in service on the battlefields of Flanders and whose identity never has been established.

Veteran and other patriotic organizations attended the impressive ceremony.

## Mounties Could Have Joined Wembley Parade

Left Out to Reduce Length in Explanation Given

London.—The department of overseas trade informs the Canadian Press that the reason why the members of the Royal Canadian Mounted Police, now doing duty at the Canadian pavilion of the British Empire Exhibition, had not a place in the military procession in connection with the Empire Thanksgiving service in 1925, was because the department was under special instructions to reduce the length of the procession this year, instead of having it as long as it was last year.

If the Canadian authorities had asked for the Mounted Police to be included in the parade, the department states, arrangements for this would gladly have been made.

## Bankruptcy Act Amended

Bill to Aid Insolvent Farmers Given First Reading

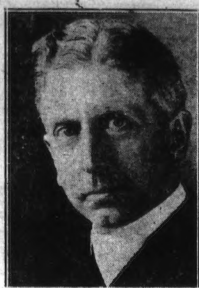

Ottawa.—An amendment to the Bankruptcy Act to enable the provinces to appoint official custodians to administer the estates of insolvent farmers and to enable such farmers to carry on work after having been declared bankrupt, was introduced in the House of Commons by Hon. Ernest Lapointe, minister of justice. The amendment, as introduced in the commons, has been passed by the senate. The minister said that the proposals were enforcing the recommendations of the banking and commerce committee of last year. The matter had been urged for some time by Saskatchewan and Alberta members of parliament.

The bill was given first reading.

## To Ban Beer Ads

Ottawa.—On account of the resolution of indignation recently adopted by the Women's Christian Temperance Union in this city, the Ottawa Electric Railway has announced that its 14 beer advertisements will be removed from street cars at the expiration of the advertising contracts.

W. N. U. 1579

E. Roy Sayles, Manager and Treasurer of the Canadian Weekly Newspaper Association, who will attend the Convention in Winnipeg, June 24, 25, and 26.

## Protest Against Changes In Soldiers' Settlement Act

Winnipeg.—In protest against proposed changes in the Soldiers' Settlement Act, immediate representation will be made to the Dominion Government by the Manitoba Command of the Great War Veterans' Association. It was announced here. Officials of the organization maintain that the suggested amendments are not in keeping with the request made by the G.W.V.A., and generally are unsatisfactory to the soldier settlers.

## Cowboys Are Breaking Buffaloes To Harness

Will Be Driven Through Calgary Streets in Jubilee Parade

Calgary.—When the historical pageant, which will mark the fiftieth anniversary of the birth of the city of Calgary is held on the morning of July 6 this year, Calgaryans and visitors to the city will see for the first time in history two full-grown Alberta buffaloes driven in harness through the streets of the city, attached to an appropriate cart.

The buffaloes have been shipped to J. M. Dillon, well known stockman of this city, by Oscar Duclos, of Edmonton, the packing plant magnate, and they are being broke to harness in this city by Harvey Shore and Bert Bishop. When first received several weeks ago, the buffaloes were almost unapproachable, but nothing daunted, the cowboys "gently broke" them, and now they are being driven in harness and will follow any person who shows them a tin of oats.

## Man Has Miraculous Escape

Carpenter Used Plank to Break Fall From Fifth Story

San Francisco.—Using a 15-foot plank for a parachute, Ralph Harth, a carpenter, employed on a new building here, accidentally descended from the fifth story to the sidewalk unharmed, save for a slight shock. Harth was pushing up the plank when he fell down the scaffolding. He held fast to the timber and the area it exposed to the wind broke his fall. Doctors at the hospital where he was taken for examination, declared his escape from instant death was a miracle.

## Noted Scientist Dead

London.—Sir William "Fletcher" Barrett, scholar and scientist, died here at the age of 81. Sir William founded the Society for Psychical Research and formerly was its president. His writings covered a wide field of philosophy, science and psychical research.

## Soviets Give Trotsky Position

Moscow.—It was officially announced that Leon Trotsky, former minister of war, who recently has been in political disfavour, has been appointed a member of the presidium of the supreme economic council and chairman of the general concessions committee.

## Story Of Tragedy

Ottawa.—Hon. Charles Stewart, minister of the interior, said in the house that he was having the papers prepared respecting the fatal Wrangell Island expedition, and they would be presented to the house shortly.

## C. W. N. A. Convention

Splendid Program Arranged For Gathering in Winnipeg on June 24, 25 and 26

The Canadian Weekly Newspaper Association, whose membership is Dominion-wide, will hold its annual convention this year in Winnipeg on June 24th, 25th and 26th. A large attendance from both Eastern and Western Canada is assured, and it is estimated that between four and five hundred delegates will register. Elaborate plans are being made for the reception and entertainment of the newspaper men, and a most successful convention is anticipated. On Thursday, the 25th, the Provincial Government will tender a banquet to the delegates at the Manitoba Agricultural College at which addresses will be given by Premier Bracken of Manitoba, Premier Dunning of Saskatchewan and Premier Greenfield of Alberta. The city of Winnipeg will entertain the delegates at a luncheon at Assiniboine Park on Friday, the 26th.

On Friday evening the party are invited to a dance at the Royal Alexandra Hotel, the guests of the Canadian Pacific Railway. The Winnipeg Trades and Convention Bureau will entertain the newspaper men to an automobile drive and visits to interesting parts of the city during their stay.

On Saturday, June 27th, the delegates are invited to spend the weekend at Minkisi Inn, the guests of the Canadian National Railways.

## Must Secure Game License

Foreigners Going Into Hinterland Must Pay License Fee to Hunt

Ottawa.—Authority to compel foreigners going into the Northwest Territories to take out a license is invested in the Federal Government by a bill which was given first reading in the House of Commons.

The minister of the interior, Hon. Charles Stewart, explained that from time to time foreigners were entering the Canadian hinterland to explore and hunt game, and it appeared at present that the government had no authority to demand that such people take out a license. It was the intention to exact license fees hereafter.

## Dirigible Badly Damaged

R-33 Will Not Fly For Some Little Time

London.—The dirigible R-33 will not be ready to take to the air again until the end of July, or early August, as she was damaged more extensively than was at first supposed, when she broke away from her moorings at Fulham in April.

Meanwhile, the R-36 is being prepared for a trip to Egypt and may perhaps be used for some of the trials in which the R-33 was to have been tested.

## Will Not Negotiate With Soviets

London.—Foreign Minister Chamberlain, answering questions in the House of Commons, declared the British Government had no intention of resuming negotiations with Soviet Russia.

Mr. Chamberlain said: "I should, of course, consider any proposals made to me, but I have no intention of initiating them."

## Ammunition For Afghanistan

Allahabad, India.—The Allahabad Pioneer states that 5,000 boxes of ammunition have landed at Karachi to be dispatched to Kabul, Afghanistan. Russian aeroplanes, pilots and mechanics have arrived at Kabul for the organization of an air force to prevent the repetition of the recent disturbances in the Kohat district of Afghanistan.

## Death Toll In Jap Earthquake

Tokyo.—The latest official estimate of the casualties from the earthquake which shook the Tajima district, northwest of Osaka, last Saturday, places the number of dead at 245 and injured at 492. Throughout the district affected 3,516 houses collapsed or were burned.

## Motor Boat Beats Train

New York.—Gar Wood, world motor boat champion, defeated the Transatlantic Century Limited in a dash from Albany to New York, May 25. The distance covered was approximately 150 miles. In 1921, Wood defeated an express train from Miami, Fla., to New York.

Lorne A. Bedy, President of the Canadian Weekly Newspaper Association, and Editor and Proprietor of The Telescope, Walkerton, Ont., who will preside at the Convention, meeting in Assiniboine Park on June 24, 25 and 26.

## Geologist Made Important Discoveries In West

Ottawa.—Dr. Donaldson Bogart Dowling, 67, explorer and geologist with an international reputation and responsible for the discovery of many coal and oil fields in Western Canada, died suddenly at his home here from heart trouble. Dr. Dowling entered the geological survey of Canada in 1884. He turned his attention to the study of coal and petroleum deposits of Western Canada, and was an international authority on this subject. His knowledge and advice was responsible for the discovery of an arctic water supply in Southern Alberta, making irrigation possible. As late as 1921 he made an examination of the petroleum discoveries at Fort Norman.

## Discuss Administration Of Canteen Funds

Very Doubtful If Detailed Statement Will Be Furnished

Ottawa.—The assertion that it was extremely doubtful if a detailed statement of specific items of expenditure would be furnished by the Dominion Command of the Great War Veterans' Association, regarding monies received from the canteen funds, marked the inquiry of a special committee of the senate, into the administration of the canteen and disbursement funds, the uses to which advances from these sources have been put, and the sale and manufacture of paper popples. Payment of \$25,000, by the Great War Veterans' Association for stock in The Veteran newspaper, and a further payment of \$5,000 for subscriptions to The Veteran, also came under discussion.

It was explained that all the funds of the association were merged in one consolidated account, and that monies received from the canteen fund had been given to extend the scope and usefulness of the association.

A statement of expenditures from this consolidated account was, however, available.

## A New Industry

Manitoba Farmers To Go In For Hemp Growing

Winnipeg.—Hemp growing is likely to become a permanent industry among the farmers of the Portage Plains district. Various farmers have agreed this year to cultivate ten acres each, the total to be cultivated this year being 300 acres. The seed is being distributed.

The Manitoba Fibre Mills, Limited, are negotiating for trackage, and it is announced that a hemp mill will be in operation by fall.

## Acquiring B.C. Creamery Plants

Vancouver.—P. Burns, Calgary, head of P. Burns and Company, Limited, confirmed reports that the firm has under way negotiations with a view of acquiring co-operative creamery plants at Salmon Arm, Vernon and Armstrong, in the interior of British Columbia.

## Canadians Get Honors At Yale

New Haven, Conn.—Four Canadians are among the 127 students who have been awarded fellowships and scholarships for graduate study at Yale University next term, including Carl Tolman, Vancouver, B.C.

## REDUCED RATES ON LIVESTOCK IS SUGGESTION MADE

Ottawa.—Dr. J. H. Grisdale, deputy minister of agriculture, advocated a \$15 per head rate on cattle shipped from Canada to Britain, as compared with the prevailing rate of \$20, before the special parliamentary committee on ocean rates. He thought \$15 for a matured steer was a reasonable rate when prevailing prices were considered, and if lighter animals were carried five in a stall, the rate might be decreased.

"A reduction in the rate would open up a market, the value of which is scarcely calculable," the witness said. He compared the \$100 cattle rate of some years ago with the rate prevailing today, and said that the present rate was making it difficult to build up the Canadian cattle industry. Not only would the Canadian cattle shipper be competing with the \$100 cattle rate, but the steamship companies would be assured of regular cargoes, because of the development of the industry. There was practically an unlimited market for Canadian cattle in Britain, and at present, space was inadequate.

## Relief For Soldier Settlers

No Further Legislation In View Says Hon. J. A. Robb

Ottawa.—During the debate in the House of Commons on the resolution providing a credit to the account of any soldier settler whose contract with the government had not yet expired, or forty per cent. of the value of all livestock advanced and purchased before October 1, 1920, and 20 per cent. of the purchase price of all livestock in the following twelve months, J. H. Harte, Conservative, York East, stated that there seemed to have been no attention paid by the government to the question of relief in respect to the excessive cost of chattels to the soldier settlers. In one case where a soldier had paid \$250 for a bay mare, ten years old, and \$25 for 25 hens, he thought that livestock at this price was rather expensive and asked what was the policy of the government in regard to affording relief in such cases.

Hon. J. A. Robb, minister of immigration and colonization, replied that he would have the case of the soldier settler referred to by Mr. Harte looked into, but that no further legislation is in view in regard to this matter.

## Communists On Rampage

Terrorize Council Members In Town In France

Paris.—Communists invaded a meeting of the city council at the city of Ville Neuve-Le-Roi, and compelled the members of the council to sign a document proclaiming the dissolution of that body. The Communists then forced the councillors to leave the room in the city hall, where they had been in session. Later, police, summoned by the ousted city officials, attacked the invading Communists and routed them.

## Public Shooting Grounds

Edmonton.—Thirty-two public shooting grounds in Alberta will be available for general use next shooting season, under the new regulations recently made by the Dominion authorities. The location of these grounds has now been announced, an order-in-council having been passed at Ottawa, setting forth the particulars of areas thus reserved in the three prairie provinces.

## Wins Medal At McGill

Montreal.—Many westerners were among the students graduating at McGill University, May 26. A British Columbian, T. H. John, of Victoria, won the Stevenson gold medal for dentistry.

## Named Army Chief

Berlin.—Miss Mary Booth, second daughter of Gen. William Bramwell Booth, has been appointed head of the Salvation Army in Germany, succeeding Commander Oegrie.

## Scottish Church Union

Edinburgh.—The general assembly of the Church of Scotland, by an overwhelming majority, carried a resolution approving union with the United Free Church.

### Wait for This!

The Ladies' Aid of the Union Church is putting on a play the 12th June (Friday) at 8 p.m.

The title of the play is "Strictly Business," and it's brimful of humor—don't miss seeing it.

Cast of characters follow—

## BEAUTY SPOTS IN NATURE'S WONDERLAND

FOR the lover of natural beauty, no place on the North American Continent holds more charm than does Jasper National Park, the 4,400 square mile playground set aside in the Canadian Rockies for the benefit of Canadians and their guests. Here lake and river blend with towering snow-clad peaks and, provide a scenic setting which is unequalled. In this great natural park, wild life

has been protected and as a result the animals have become friendly to mankind and are not only increasing in numbers but are also becoming very tame. Elk, deer, bears, mountain sheep and moose are seen by visitors as they drive or ride along the highways or bridle paths which radiate from Jasper Park Lodge, the bungalow camp hotel of the Canadian National Railways.

The photographs above show a few of the beauty spots of Jasper National Park. The left upper photograph shows Mt. Erebus, one of the towering peaks of the region, while that to the right is Mount Edith Cavell, Canada's everlasting memorial to the heroic British war nurses. Below, from left to right, are shown: Moose Canyon; fishing on Pyramid Lake, and a group of tourists at the Cavell Glacier. —C.N.R. Photos

### Here and There

According to the Alberta Provincial Department of Agriculture nearly a quarter of a million bushels of cats were shipped from that province to New Zealand for food purposes last winter.

The Quebec Provincial Automobile Bureau estimates that well over 100,000 automobiles will be registered in that Province during the year. This will mean an increase over the 1924 registration of about 15,000 cars.

The 1924 exports of live cattle to Great Britain exceed the 1923 figures by over twenty-two thousand heads, according to the official Canadian returns. Exports to the United States also showed a slight increase.

Four small wooden vessels to act as tugs and feeders from Corvaton Gulf to Herschel Island, in the Arctic, are being built at Vancouver, B.C., to the order of the Hudsons Bay Company. They will be well powered and sheathed in iron bark.

There is now only one mine in the Crow's Nest Pass district idle. Between eight and nine thousand tons of coal are being mined there daily and the mines at Coleman, Blairmore and Bellevue are rapidly striking their stride, their output being about six thousand tons.

Although the chief beneficiaries under the new British preference proposals will be Canadian wheat, tobacco and automobiles, it is stated that Canadian wines and silk goods will also benefit to a certain extent. In the sugar preference the increase of about 25%, and in tobacco of from a fourth to sixth has been made.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$8 an acre, were increased to \$5. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a result of it, a settler may obtain a grant of \$100 from the Government as a reward for his work.

The annual invasion of Canada by anglers from the United States has commenced. F. N. Peet, secretary of the Isaac Walton League of Chicago, with other members of the League is catching salmon at Cains River, N.B., while a party of prominent newspapermen from New York is at Lake Archambault, in the Laurentians, in quest of the elusive trout. Mr. Peet holds the world championship for casting a fly.

Walter Lindley-Jones, editor and founder of the Mercantile Guardian, of London, Eng., and an authority upon commercial matters in general, recently passed through Canada on the last lap of a journey around the world, by Canadian Pacific steamships and trains. Mr. Lindley-Jones states that a terrific boom is due in China as soon as hostilities cease there and that Great Britain and Canada will be the chief beneficiaries.

A man reached the station platform just as the 5.15 was pulling out. A little burst of speed netted him fifty feet in overcoming the train's handicap, but the best he could do thereafter was to run a losing race. He quit at the end of the long platform and returned. "Miss your train, sir?" enquired the porter cheerfully. "No, my friend," he replied, "Oh, no I was just chasing it out of the yard. You oughtn't to allow it around here. Don't you see the tracks it has left?"—From "Rail Life," by Alfred Price.

### Stony Plain and District.

Mr Bord gave a movie-picture show in Stony Saturday night.

At the local Court on Monday Mike Schmigelisky was fined \$10 and costs for assault.

Having been unable to negotiate for a hotel in Calgary or Edmonton, Pete Baron has decided to move to Carvel and open a garage.

Calves are being marketed in this district at present in large numbers. The recent rise in the market price of hogs up to about 11c was the means of inducing local farmers to bring in a very large percentage of unfinished hogs, being contented to take the cut on their lights rather than hold those over and sell on a dropping market.

Following the complaint in last week's Sun about the state of Inga bridge, the work of repair was commenced immediately, and the bridge is now in fairly good condition.

Now the kick is about the road to Mewassin—in two places the road allowance is filled with water, necessitating all traffic to make detours thru adjoining fields.

Mr R. Pearson, of Bright Bank, sailed on the SS. Megantic on Saturday for a tour of Great Britain, France and Belgium.

When Mike Pytel was arraigned in the Edmonton court last week, no one appeared to prosecute, and the case was dismissed.

Mr J. A. Barrie, with his son Lynn and daughter Violet will operate the store, dressing booth, bolts, etc., at Edmonton Beach this season and the public will be assured of a good time, tables, well water, 2 rafts, new high-diving pier, runway where are supplied. Bring your tent and camp for the summer, its free. An ideal spot to hold the first and 4th of July celebrations.

### Red Cross Classes

The regular weekly meeting of the Red Cross class of the Stony Plain W.I. was held in the Town Hall on Thursday May 28th. The lecture was given by Mrs. S. C. Elliot, and was entitled "Health in the Home." The next meeting will be held tonight (Thursday) June 4, in the same place at 8 p.m.

### News from the Grove.

The big meeting of Spruce Grove M.D. ratepayers took place Friday last in Winterburn hall, according to schedule. All the councillors were present except Councillor D. Giese.

The meeting was opened by Reeve Brox, who explained the cause of the call for the meeting, namely to discuss the advisability of moving the municipal offices to the City of Edmonton. The chair was then taken by Mr Jespersen, and the discussion was off to a good start, in which all and sundry took part.

The final outcome was that the matter was left in abeyance for the time being, with the prospect that it will be re-opened at the end of the year, when a vote of the ratepayers may be taken, to decide the question.

### Calendar.

- June—  
4—Town Council meets.  
8—Eye Specialist at the Royal Hotel.  
9—Stony Plain Women's Institute meets.  
10—Shooting competition at the Comet Ranges.  
12—"Strictly Business," a play by the Ladies' Aid, in Duchesne's Hall.  
27—Secretary Pidgeon in Stony Plain.  
29—Liberal Convention in Stony Plain.

### Daily Mail Service

The change in the mail service to Stony promised in last week's Sun came into effect on Monday last, and merchants and others in town are now in the happy position of receiving their mail every 24 hours, and also the advantage of a return mail to Edmonton and the East.

This was accomplished thru representations made to the postmaster-general by Hon. Charles Stewart, Minister of the Interior.

### Sporting Notes.

Stony Plain School basketball team played the Spruce Grove girls last week on the local grounds, the visitors winning by 5 points to 4. Mr E. Golz refereed in a very satisfactory manner.

Spruce Grove—Louise Brox, Freda, Lena, Marie and H. Loeblich.  
Stony Plain—Etta Stenb, Amy Forster, Lydia Zucht, Florence Graden, Mary Paul.

At the ball game at Duffield Sunday the score was—Evansburg 8, Duffield 6.

Muir Lake ball club played Onoway on Sunday, on the former's grounds. Score: Onoway 11, Muir Lake 12.

A good game of basketball was played Sunday last at St. Matthew school No. 1. It was a tough game, St. Matthew No. 2 losing by the score of 22—4. A better game will be seen when these teams are more evenly matched.

### What They're Saying.

Down in Ontario the gasoline service stations—wanted to sell the stronger beer that the Government is permitting, as well as to supply gasoline. That would have been real service all right—liquid service for man and his hizzie.—Ray's Magazine.

There are several U. F. A. members of the Provincial Legislature who are likely to meet with considerable opposition when they go before the constituency nominating conventions to be held shortly. Constituency political associations of the U. F. A. in four or five cases at least are said to be considering new candidates.—Edmonton Bulletin.

### Stony Plain and District

Services were held in the local Lutheran Church Monday morning last, when Rev. Prof. Schwerman of Edmonton preached.

Detective Skellon, of the A. P. Police, was a visitor in Stony on Saturday.

On Thursday last an illustrated lecture was given by Mr. Boettcher at his school, on the "Pilgrim's Progress." There was a good attendance of scholars.

Meridian Lodge held its regular monthly session Tuesday evening.

Councillor McKinlay received the new road grader on Monday, for use in division one.

Secretary Pidgeon, of Inga M.D. No. 520, will be in Stony Plain Saturday June 27, for the purpose of collecting taxes. Notice is given that a penalty of 5 per cent will be added to all arrears of taxes, commencing July 1st.

C. N. express money orders are now on sale at Clarke's Drug Store.

Get your stallion route cards printed at The Sun office.

### "Tiresome Stops."

Waiting for a train to pass the crossing.  
Waiting for the end of the sermon.  
Waiting for a telephone connection.  
Waiting for a letter from home.  
Waiting for a woman.  
Waiting for the fellow who walked after gasoline.  
Waiting for a meeting which will never be called.

J. A. McCOLL,  
Special representative of the Vancouver Harbour Commissioners in Alberta and Saskatchewan.

Bringing home to grain growers and shippers the advantages of the Western grain route and the grain handling facilities at the Port of Vancouver, Mr. McColl is visiting every grain centre in Alberta and Western Saskatchewan this summer, addressing Boards of Trade, U. F. A. locals, Farmers' Institutes, and personally calling upon grain shippers to make them acquainted with what Vancouver has to offer them as a shipping centre.

Having been an Alberta farmer for 14 years, and being born and raised on an Ontario farm, Mr. McColl, who formerly represented Acadia in the Alberta legislature, has a practical knowledge of the grain situation that is proving invaluable on his present mission. The experience gained on the land has been amplified by personal inspection of the Vancouver facilities and the advantages of the Western route.

It was Mr. McColl, at the time member for Acadia who was responsible for the Federal government taking action to end the Board of Railway Commissioners' power to transfer grain and coal cars from one railroad to another in order to handle grain at congested points, his active firm on this occasion saving many farmers from loss of their entire crop.
